CardConnect® is a rapidly growing payments technology company that provides solutions for companies that accept bank card transactions, store sensitive data and seek to push the boundaries of innovation.

Trusted by more than 50,000 businesses, ranging from Fortune 500 Companies to independent coffee shops, CardConnect's proprietary gateway and API make payments simple, integrated (Oracle, SAP, JD Edwards) and secure.

CardConnect's patented payment security solutions use point-to-point encryption (P2PE) and tokenization to provide an unparalleled level of data breach protection and full escape from the burden of PCI compliance. CardConnect is proud to announce it is now officially a PCI-certified provider of point-to-point encryption.
